PERSONAL PROJECTS

QuotesApp (01/2019 – 04/2019)

- QuotesApp is an app where you can share your own creative and innovative quotes. Check out at <https://ayushmanbilasthakur.github.io/QuotesApp/>

HANDY-WRITER (09/2018 – 11/2018)

- With the help of marked.js, this app turns your markdown to HTML to normal text and HTML. Check the app out here: <https://ayushmanbilasthakur.github.io/HANDYWRITER/>

Portfolio + Blog (10/2019 – 12/2019)

- This very webpage is one of my best frontend creations. Built with saber.js (a vue.js framework) this website is static-built like gatsby and is super fast. Check the webpage out here: <https://www.ayushmanbthakur.com/>

FishOut (12/2017 – 12/2017)

- A small game built with a small team for a Game-Jam. Built with GameMaker Studio this game is a small arcade type game. <https://ayushman001.itch.io/fishout>
