SKILLS

`HTML5` `CSS3` `JavaScript` `Express.js` `Flask`
`Vue.js` `React` `Content Writing` `MongoDB` `C`
`C++` `Python 3`

PERSONAL PROJECTS

Portfolio + Blog (10/2019 – 12/2019)
○ This very webpage is one of my best frontend creations. Built with saber.js (a vue.js framework) this website is static-built like gatsby and is super fast. Check the webpage out here: https://www.ayushmanbthakur.com/

QuotesApp (01/2019 – 04/2019)
○ QuotesApp is an app where you can share your own creative and innovative quotes. Check out at https://ayushmanbilasthakur.github.io/QuotesApp/

HANDY-WRITER (09/2018 – 11/2018)
○ With the help of marked.js, this app turns your markdown to HTML to normal text and HTML. Check the app out here: https://ayushmanbilasthakur.github.io/HANDYWRITER/

FishOut (12/2017 – 12/2017)
○ A small game built with a small team for a Game-Jam. Built with GameMaker Studio this game is a small arcade type game. https://ayushman001.itch.io/fishout
